- C
- C#
- PHP (Laravel)
- Unity
- Angular
- HTML, CSS, JavaScript
- VCS - Git, Github
- SQL, MySQL, SQLite

## LANGUAGES

- Serbian
- English (Fluent)

## HOBBIES

- Foreign Languages
- Sports
- Movies, TV Shows
- PubQuiz

## PROFILE

I am a 24-year-old graduate from the Faculty of Organizational Sciences, University of Belgrade, with a specialization in Information Systems and Technology. I am fully prepared to begin a career as an IT specialist. A motivated team player, a diligent worker, and quick to adapt and learn, I am especially eager to expand my programming knowledge and continuously deepen my skills in software development and technology.

## PROJECTS

Worked on various projects utilizing diverse technologies, including Java, C, C#, PHP (Laravel), Unity, Git, HTML, and Angular.

**I have developed several projects, including:**

- A website for cinema (HTML, CSS, JavaScript)
- Client-server application for monitoring theater operations (Java, MySQL)
- 2D platform PC game (Unity, C#)
- A web application for selling tickets (Laravel, Angular)
- A Pinterest-like application (SpringBoot)
- Insurance Web Application – Backend Development (Spring Boot, SQLite, Swagger, [GitHub](#))
